

April 2005

Dear Colleague,

DOLAV is pleased to announce the new

HEAVY LOAD BOX Type (1000)-HL

- We, at DOLAV, are constantly striving to develop and improve our box pallets to meet the special requirements of our customers.
- The Heavy Load Box is the result of intense research to customize and adapt a product that meets a special need.
- The Heavy Load Box can store twice the load of a standard box when not stacked due to the addition of an extra leg for support.
- The Heavy Load Box is specially useful for heavy industry where the storage of heavy metal and other industrial products are needed.
- We hope that this innovative improvement to the standard type 1000 box pallet will be a welcome addition in marketing to this segment of the industry.
- Outside dimensions - 1200 x 1000 x 740mm high
- Inside dimensions - 1120 x 920 x 600mm deep
- Tare Weight - 37.5 kg
- Volume - 600 liters
- Maximum Load - 1400 kg – when standing on the ground

Yours sincerely

Marketing Department
