

July 2006

Dear Colleague,

Dolav continues to promote its activity worldwide and is happy to inform you about our participation in exhibitions around the world:

During June 2006 Dolav exhibited at two packaging exhibitions:

Rosupak in Moscow, which was a big success and;

Pro-Pak Asia 2006 in Bangkok, which was the first exposure of Dolav in Bangkok and attracted the attention of many companies who saw our products as a unique solution for large volume and heavy duty usage.

DOLAV will, during September, participate in two international exhibitions.

The first one, PLASTO ISPACK, is taking place in Tel Aviv on the 11th through the 14th of September.

FACH PACK, which will take place in **Nürnberg** on the 26th of September through the 28th, and where DOLAV will display a large variety of our latest customised solutions.

We invite you to join us at both of these exciting events.

We wish you a pleasant summer holiday.

Best regards

Dolav Marketing Team
