

January 2008

Dear Colleague,

We at **Dolav** are starting the new year with good news and high expectations.....

We are happy and proud to announce that the enlargement of the new section here at **Dolav** is now finished, and the new injection machine is already working.

Dolav has invested great effort in order to increase production ability and to continue providing the quality and service that our customers have come to expect over the years. We are sure that the addition of the production capacity will improve service and lead times.

We would like to thank you all for your patience and understanding during the period of construction.

We look forward to continued cooperation this coming year and wish all our customers the world over a year of peace and prosperity.

Happy New Year

Dolav Export Department
